

Missions of the Curriculum Committee at the University level

1. Identifying the general policy from which to prepare for and develop the curriculum.
2. Verification of the conformity of the curriculum at the University with private accreditation standards.
3. Examine the curriculum, make suitable modifications and indorse them according to the recommendations of the related faculties.
4. Coordinate among different specializations and faculties with respect to the subject of common nature and making sure not to be repeated.
5. Follow up the implementation of the approved curricula by the faculties and the admission department.
6. Documenting everything related to the curricula and archiving them in the admission department and the faculties.
