# **The Influence of Israeli occupation on Palestinian National Identity( Folklore a Model)**

**Prepared By: Abeer Al Maraghy**

**Supervised By:Dr. Msood Al Rabadi**

## **Abstract**

This study aims at revealing the Israeli aggressions on the Palestinian identity which was formed through the hot conflict, in order to assure presence and the right to achieve independency.

The study has focused on the national folklore as an integrate element of the national identity. Moreover, staling folklore equals staling the land. Israeli aggressions affects all aspects of life of the people of Palestine. In this domain the Palestinian folklore, substantial or spiritual, was being attacked by Israelis through a directed and intended approach.

Israelis applied different techniques to destroy the Palestinian national identity such as distortion and claiming of own. Israel tried to say by attacking folklore that Palestinians are people without history and civilization, hoping to justify its ownership of the land.

The study concluded that, all components of folklore in Palestine are Arabic Islamic origin and identity. The roots of this folklore belonged to our grandfathers and Israelis are only invaders and have no ties with our land and folklore.
