Personal statement

A recent master's degree in clinical pharmacy graduate with a 4 out of 4 GPA. A highly organised and efficient individual, whose thorough and precise approach to projects has yielded excellent results. A former clinical pharmacist at the Arab Medical centre, worked at the internal medicine, surgical, oncology, gynaecology, and both intensive and coronary care units. This gave me the opportunity to be subjected to a wide variety of diseases, medications, patients, and health care providers.

Key Skills

- Proficiency in all areas of Microsoft Office, including Access, Excel, Word and PowerPoint
- Excellent communication skills, both written and verbal
- Excellent presentation skills, both in Arabic (native language) and English (well spoken, and written)

Employment History

Clinical Pharmacist, Arab Medical Centre, Amman-Jordan

(September 2012 – March 2015)

Achievements and responsibilities:

- Interview patients that are newly admitted for medication reconciliation
- follow up the patients since admission till their discharge for any treatment related problems
- Monitor patients' medication (dose, drug, route, timing, frequency, rate of administration, and any special monitoring parameters)
- Participate in medical rounds with the physician to aid in choosing the most suitable drug of choice for patient's condition and characteristics
- Optimize the patient's medication experience
- Perform patient education for the patients especially at discharge
- Check for drug-drug interactions and drug-food or drug-disease interactions
- Perform presentations related to pharmacology and medication management in front of nurses and physicians

GPA: 3.9 out of 4 (Ranked the 3rd)

Tawjihi/ Al-Dur Almanthour School

(September 2005 – June 2006)

Tawjihi score = 94.4%

Hobbies & Interests

I enjoy reading, drawing, and writing. Reading about neurological programming allowed me to explore the power of human brain, and to believe in the saying “when there is a well, there is a mean”. I am interested too in social services, to help those who are in deep need, such as geriatrics at nursing homes and residencies.
